Comments:	

Here are our new modern slide dimmers. Ideal for residential and commercial spaces, they offer single-pole and 3-way compatibility, with a sleek design in a standard format. Compatible with all dimmable LED (150 W) and incandescent (600 W) loads, they ensure versatile and reliable performance. Available in black and white, they integrate seamlessly into all your lighting projects.

Ordering Information

Ordering Code	Power for LEDs	Power for Incandescent	Minimal load	Voltage	Operating temperature	Couleur
DM1-150W-SL-3-WH-V2	150W	600W	5W	120Vac 60HZ	0°C to 40°C	White
