Comments:	

Introducing our Running Man Combo (Metal), a durable emergency lighting solution built for surface, conduit, and double-sided mounting. Ideal to keep your commercial and industrial spaces illuminated during power outages, with over 2 hours of uninterrupted lighting. This product is CSA certified and rated for damp locations, attesting to its reliability and versatile use across your building safety projects.

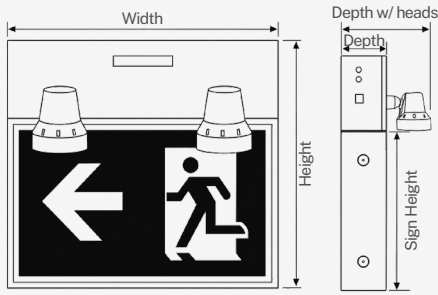

Specifications

Input Voltage	120-347Vac	Battery duration	≥30min at 36W, ≥60min at 18W, ≥90min at 12W, ≥120min at 9W
Input current	0.325Aac	Wire Size of Leads	18AWG
Power	36W	Colour	White or Black
Power after LED	32W	Material	Metal
Colour Temperature	6500K	Operating Temperature	5°C to 30°C
Beam Spread	180° Rotation	Environment	Suitable for damp locations
Lumen Output	2 x 120 lm	Warranty	Body: 5 Years, Battery: 1 Year
Battery	Lead-Acid 6V/6Ah, recharge 20 hours	Certifications	CSA

Running Man Combo

EX-RM2-EM1-2-5W-BK-V1

Dimensions

Width	Height	Depth
12-3/16" (310 mm)	11-1/16" (280 mm)	2-1/8" (54 mm)

Depth w/ Heads	Sign Height
5-9/16" (142 mm)	7-5/16" (186 mm)

Included Stencils

1 x Running Man with Arrow
(Right)

1 x Running Man with Arrow
(Left)

1 x Running Man without Arrow

1 x Running Man with Arrow
(Bidirectional)

Order information

Ordering Code	Input Voltage	Rated Power	Lumen Output	Battery Duration	Colour
EX-RM2-EM1-2-5W-V1	120Vac-347Vac	36W	2x120lm	2h+	White
EX-RM2-EM1-2-5W-BK-V1	120Vac-347Vac	36W	2x120lm	2h+	Black

Circuitry

Voltage	Input Characteristics
120Vac 50/60Hz	Input Wattage : 3.2W
	Input current : 0.03A
	Efficiency : 0.97PF
277Vac 50/60Hz	Input Wattage : 3.3W
	Input current : 0.01A
	Efficiency : 0.92PF
347Vac 50/60Hz	Input Wattage : 3.6W
	Input current : 0.01A
	Efficiency : 0.92PF

The battery voltage is negatively correlated to the input wattage

Battery duration	≥ 30min at 36W
	≥ 60min at 18W
	≥ 90min at 12W
	≥ 120min at 9W

Additional Accessories (Sold Separately)

4ft Power Cord
EX-PC4
