

# Vapour Barrier for 1 Gang Boxes

ED-VB-1-V1

Date:	Project:
Prepared for:	Type:
Comments:	

Designed to maintain insulated wall integrity, this vapour barrier fits 2" x 3" single-gang electrical boxes up to 3" deep. Made from transparent, durable material for clear installation visibility, it withstands a wide range of temperatures without cracking. Ideal for residential and commercial use, it installs quickly and provides a reliable seal around standard one-gang boxes.

## Specifications
