

# 0-10V LED DIMMER

DM10-1200W-SLP-3-WH-V3  
DM10-1200W-SLP-3-BK-V3

Date:	Project:
Prepared for:	Type:
Comments:	

Our 0-10V dimmer switch is designed for reliable and precise lighting control across a wide range of commercial and residential applications. Supporting 120-277V operation with up to 10A capacity, it delivers smooth dimming performance and dependable load handling. Ideal for modern lighting systems requiring flexible voltage compatibility and consistent dimming control.

## Specifications

<b>Input Voltage</b>	120-277 Vac
<b>Input current</b>	10A max
<b>0-10 V Control Input Current (max)</b>	50mA
<b>Nominal Power</b>	120V : 1200VA 277V : 1385VA
<b>Operating Temperature</b>	0°C to 40°C
<b>Environment</b>	Damp

<b>Dimensions</b>	4-1/8" (10.49 cm) x 1-3/4" (4.39 cm) x 1-1/4" (3.10 cm)
<b>Material</b>	Aluminum, Polycarbonate
<b>Length of Leads</b>	5"
<b>Wire size of leads</b>	18AWG AC wires 20AWG 0-10V wires
<b>Warranty</b>	2 years
<b>Certifications</b>	cETLus

## Order information

Ordering Code	Input Voltage	Input current	0-10 V Control Input Current (max)	Finion
DM10-1200W-SLP-3-WH-V3	120-277 Vac	10A max	50mA	White
DM10-1200W-SLP-3-BK-V3				Black

# 0-10V LED DIMMER

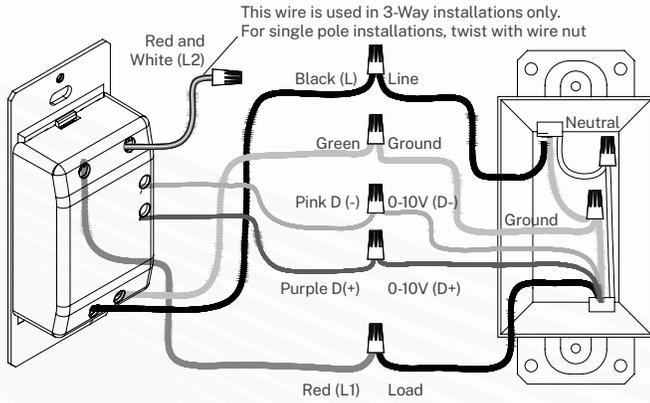

DM10-1200W-SLP-3-WH-V3

DM10-1200W-SLP-3-BK-V3

## Installations

### Single Pole Wiring

### 3-Way Wiring
